

Training

Technical, Applications
and People Skills

PARADISE

Training

Paradise is an established training provider, with a track record of delivering high quality training for over 20 years.

We have the capability to develop training programmes to match your precise training requirements. Supporting this is our range of scheduled technical, application and personal development programmes. Training can be provided 'on site' or at our training suite, where our reputation for friendly and effective learning has been established.

Technical Training

Technical training can cater for a single delegate on a scheduled programme to arranging and conducting complete company roll-outs throughout the UK

Our unique partnership with other training providers allows you access to accredited programmes at competitive costs. We have a wide range of scheduled programmes including Prince2, Cisco and Dreamweaver, running at locations throughout the UK.

Application Training

In our modern, air-conditioned training environment, you are assured of reliable, fast, consistent and multi-versioned software running on state-of-the-art Microsoft servers. Using high-quality courseware your IT applications training including Microsoft Office and Sage Software will be delivered by professionally qualified experienced trainers.

Personal Development

Development is a people centred process

Our aim is to understand your needs and provide personal development that benefits the individual and importantly, adds value to the performance or capability of your company. Designed and delivered by our professionally qualified trainers, each programme incorporates the latest in training approaches and thinking.

With programmes incorporating Management and Communication Skills, Handling Conflict and Assertiveness Training, our range of programmes can support you at any stage of your career.

Customised

"Besides IT skills an additional key competency now vital to industry is communication skills"

Paradise's approach to developing and delivering customised training has proved very successful for a range of organisations in recent years. By utilising your knowledge of your company we can create programmes that are company centric and memorable to attendees.

For you to obtain the best value from every training intervention, we can work with you through the full training cycle – from Training Needs Analysis to Transfer of Learning to your workplace.

To discuss your training requirements call our dedicated Training Account Manager. Alternatively you can search our full range of programmes by accessing our website.
