

Implementing & Managing Microsoft Exchange Server 2003

Duration – 5 days

Ref: M2400

Who Should Attend

Before attending this course, students must have:

Working knowledge of Microsoft Windows Server 2003.

Working knowledge of networking, including Transmission Control Protocol/Internet Protocol (TCP/IP) Domain Name System (DNS), and Internet Information Services (IIS)

Working knowledge of Internet protocols, including Post Office Protocol Version 3 (POP3) or Internet Message Access Protocol Version 4 (IMAP4), Simple Mail Transfer Protocol (SMTP), Hypertext Transfer Protocol (HTTP), and Network News Transfer Protocols.

Students should also have completed: Course 2274 or equivalent knowledge, Course 2275 or equivalent knowledge and Course 2276 or equivalent knowledge.

Knowledge of Exchange Server 5.5 or Exchange 2000 Server is beneficial but not necessary.

Please note: If you attend a course and do not meet the pre-requisites you may be asked to leave.

Course Objectives/Overview

This five day, instructor-led course provides students with the knowledge and skills that are needed to update and support a reliable, secure messaging infrastructure. This infrastructure is used for creating, storing, and sharing information by using Microsoft Exchange Server 2003 in a medium-sized to large-sized (250 to 5000 seats) messaging environment. This course offers a significant amount of hands-on practices, discussions, and assessments that assist students in becoming proficient in the skills that are needed to update and support Exchange Server 2003.

Skills On Completion

Skills

- Describe the process for upgrading to Exchange Server 2003 from Exchange 2000.
- Configure and manage Exchange Server 2003.
- Manage interoperability between Exchange Server 2003 and Exchange 2000.
- Secure Exchange Server 2003
- Manage recipients
- Manage public folders
- Manage address lists
- Implement and manage client access with Internet protocols
- Manage client configuration and connectivity
- Manage routing
- Manage mobile devices with Exchange Server 2003
- Manage storage data and hardware resources
- Plan for disaster and disaster recovery
- Back up and restore Exchange
- Perform preventative maintenance
- Migrate users from Exchange Server 5.5 to a separate Exchange Server 2003 organisation.

Additional Information

- Course timings - 9.30 am – 4.30 pm
- Joining instructions will be sent prior to attending the course
- Locations – Birmingham, London and Milton Keynes
