

“I have found the Paradise Training team invaluable in helping us to set up an effective work place development programme. They have gone out of their way to ensure that the lessons are structured around the needs of our business, but without sacrificing the quality in the tuition delivered. Our employees have not only benefited from these lessons, they have really enjoyed them, as you can see from their comments below:”

*Paul Aggett
Training Manager
Uniq Prepared Foods, Northampton.*

“I found the layout informal and relaxing, the course had a good structure and was kept basic. But time management is easy when kept basic.”

“Lunch and coffee’s not too bad either!”

Mirek Urban

“The overall appearance of the centre was clean and fresh with excellent facilities with good food and refreshments provided. The welcome we received was warm and professional and the informal chat before the course really broke the ice.”

“The trainer was lovely, really friendly and got the training across well. I came out of the training feeling that I had learnt something and am now using these skills in my day to day work.”

Melody Jones

“Having had the opportunity to attend the course on Time Management at Paradise I found the environment as well as the facilities were friendly and relaxed.”

“Tutor was terrific and was very personable and I felt confident in being able to ask any questions.”

“All in all I found the course very useful and have started to put the skills obtained into practice.”
