I.T. FOR BUSINESS

Mainstream II

Business Intelligence for Sage 200

Clean, Intuitive Dashboards

Mainstream II is built on a series of user-friendly intuitive dashboards that you simply access through a web browser. These reports are designed to make it easy for you to quickly get an overview of your business. Colour coding is used to highlight issues that may warrant your attention and items can be clicked on to instantly drill down to more detailed information, without the need to run a separate report.

All information is drawn instantaneously from your Sage database, so there are no overnight updates, just real time information made simple.

A Compelling Business Case

Unlike the built-in Sage 200 BI Module, Mainstream II requires no user licenses. You can allow any number of authorised users within your organisation to access Mainstream II reports for no extra cost whatsoever. In addition:

- Users only need a web browser to view the reports, reducing the need for technical support
- Users can bookmark any report, along with its selection criteria, to make it quick and easy to run again on another occasion
- Any Mainstream II report can be exported to Microsoft Excel with a single click, with all formatting preserved
- Once purchased, there are no annual maintenance or support costs, your company will own the product in its entirety

Reporting On The Move

Mainstream is provided with a complete suite of 10 reports, addressing the most common business needs. Not only can these reports be run on workplace computers, the full range of reports can also be run on your mobile devices. So no matter where your users are, they can access Sage reporting quickly and easily.

Custom Reports Tailored To Your Business

Should your organisation require any non-standard reports, we offer a full customisation service to provide you with the Mainstream reports that suit your requirements. We can develop any report you want based on Sage or other SQL data. Bespoke reports are well-designed and developed quickly, to a simple fixed cost, so you can have what you want when you want it, without a big price tag.

To find out how Paradise can help your business, or to arrange a demonstration, call us today on 0330 333 5252 or visit our website www.paradisecomputing.co.uk
