Sicon WAP

Web Authorisation for Sage 200

WAP - Web Authorisation

WAP is a locally installed web based application designed specifically for real-time integration with Sage 200. Providing data entry and approval processing for business documents including Requisitions, Invoices, Expenses, Timesheets, Holidays, Sales Orders and HR. Approvals can be based on parameters such as nominal code, project/job, user, document type and value. Real-time analysis of committed costs, nominal and project actual costs against budgets.

- Web based application linked directly to one or multiple Sage companies.
- Scalable from 1 to over 2000 users.
- SV Imports for users and approval routes.
- Approval limits and entry limits per user.
- Approval by single or groups of users per approval step.
- Mandatory users included if over budget.
- Mandatory users regardless of values.
- Custom field values to drive approval behavior.
- Custom / ad-hoc approval routes available.
- Integrate with Sage Project Accounting or Sicon Job Costing.
- Integrated email notifications and reminders included within the product.
- Restricted nominal code, project/Job code and expense items per user.

- WAP Apps now available for timesheets, expenses, holidays requisitions and invoice approval.
- Interactive reports with option to export to Excel.
