I.T. FOR BUSINESS

Software Development
Custom solutions to suit your business

Solutions to suit your business needs

As experienced Microsoft application developers, with skills in Visual Studio and links to Sage, we design, develop and deliver the perfect bespoke software development service for your business. We build and deliver powerful and often complex solutions that fit your business requirements better than any off-the-shelf product. Having delivered multiple software projects across a variety of industries, we have vast experience in working with customers ranging from small local businesses through to large multi-nationals.

Technologies

Our skilled in-house development team are experts in Visual Studio developments, both in Windows and Web applications, are typically based around SQL server. Our other specialisations include links to Sage software products, website integration and mobile devices (Windows Mobile and Windows Phone). Our highly skilled and knowledgeable professionals also have experience across all Microsoft platforms, as well as ASP, PHP, Java and other development languages.

Development methodologies

Since 1987, Paradise has developed hundreds of applications which has evolved into providing a Rapid Development Environment (RAD) approach to software design, development and testing. This ensures you receive high quality solutions that are delivered on time and on budget.

Our guarantee

Most of our projects involve payments on order and/or delivery, but with a significant retention value that ensures you do not finish paying for the system until you are satisfied.

Ongoing support

You will typically receive three months unlimited support on our software following sign-off. After this period, there is an annual maintenance fee that covers telephone, email and remote support, also addressing operating system updates, or upgrades to other software such as Sage.

Portability and freedom

Paradise do not tie you in contractually and we will not withhold the source code – you can request the source code for your own software at any time.

What to expect

You can expect an extremely high standard of knowledge, development and support. We will always strive to offer you what you need, in the way that you need it.

Paradise Computing as your Partner

Our focus is always on delivering an exciting software solutions and exceptional customer experience.

Call us on 01604 655900 to start exploring various solutions or to discuss your specific requirements.
