Paradise Computing

Solutions for Enhancing Sage 50

Great Experience

Paradise has been a Sage Partner for over 30 years. Our extensive experience and in-depth product knowledge is built on the delivery of many successful Sage 50 projects.

Reporting

Paradise has developed a unique approach to Sage 50 reporting that addresses many of the restrictions associated with the standard Sage 50 package. The technique – called “Mirror” – involves copying ALL the Sage 50 data into a database in Microsoft Office. Typically taking 2-3 minutes, this copy can be run when needed or run each night. This simple approach resolves a significant number of issues:

- **Licences:** Mirror users do not require Sage 50 licences
- **User Count:** Users of Mirror are not Sage 50 users so do not lock files or slow Sage 50 processing
- **Multi-currency:** Reports can be in any currency
- **Multi-company:** Reports can consolidate multiple companies
- **Flexibility:** We have built complex reports using Mirror that span purchase prediction, group budgets, cash flow and multiple-month P&L reporting.

Import and Export

Paradise can develop routines to import any data in and export data out of Sage 50, for EDI links to customers, suppliers or for interfacing to production systems or other software. Some Sage Partners claim this is not possible – Paradise has yet to find an interface that cannot be built.

Teaching and Consultancy

When we are approached with Sage 50 issues, we often find an add-on or specialist tool is not needed, and that there is already a feature within Sage 50 that does exactly what is required.

Our experienced, knowledgeable and friendly Sage Product Specialists are familiar with business issues, as well as knowing the software, and can frequently identify time-saving and cost-saving elements to improve the way Sage 50 is used in your business.

Start your trusted partner journey

Our focus is always on delivering an exceptional customer experience, as well as offering several added-value services to support you and your business along the way.

Whether your challenges involve reporting, interfacing or Sage 50 techniques, contact us to arrange for an investigation and quote to resolve your problems.

For a no obligation consultation or just an informal chat, call us today on 0330 333 5252 and start exploring the various solutions open to you.

To find out how Paradise can help your business, or to arrange a demonstration, call us today on 01604 655900 or visit our website www.paradisecomputing.co.uk
